Education

2018 - 2020 **University of Pennsylvania UPENN** PA , USA
Master of Landscape Architecture and Regional Planning LARP
Winner of the Merit based Scholarship based on excellent qualifications

2018 - 2020 **University of Pennsylvania UPENN** PA , USA
Certificate in GIS and Spatial Analysis

2018 **University of ETH Zurich**
Certificate in Smart Cities Online Certificate

2014 - 2017 **Shahid Beheshti University SBU** Tehran , Iran
Master of Landscape Architecture MLA
Graduated with honors
Thesis: Designing an urban Landscape with the approach of stormwater mangaement
Case Study: (Iran, Tehran, District 12)

2008 - 2013 **University of Tehran / College of Fine Arts** Tehran , Iran
Bachelor of Architecture B. Arch

Academic Experience

2020-Now **Research Asistant - Environmental Modeling Lab** PA , USA
Instructor: Keith Vandersys
University of Pennsylvania

2021 **Teacher Asistant - Contemporary Urbanism** PA , USA
Instructors: David Gouverneur
University of Pennsylvania

2020 **Teacher Asistant - GeoSpatial Software Design**
Instructor: Dana Tomlin
University of Pennsylvania

2019 **Teacher Asistant - Landform and Grading workshop** PA , USA
Instructors: Anneliza Kaufer, Cora Olgay
University of Pennsylvania

2019 **Teacher Asistant - Ecology and Built Landscapes** PA , USA
Instructors: Sally Willing, Marie Hart
University of Pennsylvania

Publications

2020 **Designing a Green New Deal : The spatial politics of our response to climate climate**
Landscape Architecture Magazine, The Magazine of ASLA University of Pennsylvania
Panorama Journal Spring 2020

2020 **Effects of urban forests on heat island in Baltimore city**
Independent Study-under publish University of Pennsylvania

2016 **Tehran's Gardens and the Impact of their Development on the city**
University of Shahid Beheshti

2016 **Optimization of Qualitative and Motional Aspects of Marine Passenger Terminal Based on Innovative Approach for Pedestrian Simulation**
University of Shahid Beheshti

Research Objective

I consider myself to be a highly motivated and optimistic individual with a keen interest in designing, and producing attractive, efficient and sustainable locations for human to enjoy. I believe in collaboration among urban experts and designers as solution. As a designer, I have the chance and the reponsibility to make my designs more reasonable by enjoying the analysis science behind my designs. My job is to preserve the human life within the growing cities, bring beauty and enjoyment into everyday experiences and to serve people in ways that will change their lives in profound ways while they may not understand. I want to make a difference with my creative thinking.

Honors

2021 First Place winner in 2020 Campus RainWorks Challenge Results in Demonstration Project Category
Growing Together, A community food forest for stormwater management at Andrew Hamilton School at Philadelphia, PA

2020 ASLA Student Award - Award of Excellence in Student Collaboration
Designing a Green New Deal

2020 Winner of the ISF Graduate Scholarship based on excellent qualification

2018 Winner of the merit based scholarship of the University of Pennsylvania School of Design based on excellent qualifications

2014 National full scholarships for graduate studies
Shahid Beheshti University, Tehran, Iran

2014 Ranked 23 among more than 50 thousand applicants on the national university entrance exam for graduate study in landscape architecture

2013 Ranked 428 among more than 300 thousand applicants on the national university entrance exam

2008 National full scholarships for undergraduate studies
University of Tehran, Tehran, Iran

Professional Experience

2021 Julia Watson Studio
Junior Landscape Architect
Collaboration with leading experts of Lo—TEK and designers to develope creative and interdisciplinary thinking to urban projects and corporate clients interested in systemic and sustainable change

2019 Viridian Landscape Studio
Landscape Architecture Intern
Collaboration with Senior landscape architects in different levels of design process of multiple projects.

2017-2018 Lindy Institute for Urban Innovation / Drexel University
Reasarcher & Urban Designer
research and collaboration with faculty members and students to analyse and deal with urban challenges and create opportunities for future developement.

2015-2017 Intelligent Design Studio
Architect
Design and collaboration in supervised execution of tight-budget dental office project published in Architecture and Construction magazine

2013 - 2014 Rige Consultant
Intern / Architect
Concept designing, Designing, Digital rendering, Advanced 3d modeling from concept to preliminary proposal for the project of International Airport in Guinea Equatorial

Workshops and Events

2019 **Design with Nature**
Volunteer Collaboration in holding events

2018 **ASLA 2018 Annual Meeting & Expo** Philadelphia, PA
Volunteer Collaboration in holding events

2018 **Designing water** Philadelphia, PA
Collaboration between LongWood Gardens and the American Academy in Rome

2016 **Architecture and urban design Workshop, Spain**
University of Tehran in Collaboration with University of Madrid
Create the new image for the city by collage and other graphical techniques Longwood Graden, PA

2016 **2nd National Conference on Landscape Architecture (NCLA)**
Educating landscape architecture, Professional approaches in landscape architecture, New findings in landscape architecture

2015 **Advanced studies of Urban Landscape Phenomenology**
4th workshop of urban landscape visualization
5th workshop of Territory aspect of Landscape

Languages

Persian	Native
English	Fluent
Arabic	Intermediate

Professional Skills

Personal

Ability to visualize, Conceptualize, resolve, and develop creative designs

Good team leader, excel at motivating team members to achieve optimal goal, Clear communicator, both oral and written

Creative, dynamic and optimistic individual with capabilities in completing multiple tasks with passion

Digital

Modeling Tools
Rhino
Grasshopper
Autocad
3DSMax
Sketchup
3D Printing
CNC

Analysing Tools
GIS - Raster,Vector
Python - GIS
Java Scrpit - Google earth engine
R language

Presentation
Adobe suite
Vray
Lumion
